## Leave Me

You came in like a tornado  
Lifted me up, and showed me how to love  
Now I only see your shadow  
Turning away, from what we have become

Am I hanging for to nothing  
Holding out that someday  
We can change

Ohh leave me  
Or leave me  
In misery

Love me  
Cause I can hardly breath  
I don't, have the strength, to set us free  
So leave me, leave me  
In misery

Can't look in the mirror anymore  
The pain in my chest  
This feeling you've undressed  
Why all this keeping score  
Thought we were in love  
But I guess that now it's war

Am I hanging onto nothing  
Is there anything  
we can save

Ohh leave me  
Or leave me  
In misery

Love me  
Cause I can hardly breath  
I don't, have the strength, to set us free  
So leave me, leave me  
In misery
